On 3.2.2012, the Democratic Party of Wisconsin received a Request for Additional Information. We were asked to address four specific items. Our responses are outline below:

2. ""Political consulting"" was a payment made to an independent contractor for field consultant work. This consultant did not advise on fundraising, nor communications for any federal election, or any election in connection with a federal candidate. ""GOTV Supplies"" and ""GOTV expenses"" were materials purchased for use. These materials were not used in connection with a federal candidate or a federal election.

1. All missing address information has been provided in the amendment.

4.All ADP salary memos are present in the new amendment. There are additional disbursements to ADP for payroll-processing that do not have memos attached, as they are not required. These are simply fees to ADP for payroll processing.

3. ""GOTV expenses"" and ""GOTV supplies"" were expenditures made. However, they did not support, oppose or attack a federal candidate. They did not reference a federal candidate or a federal election.
